EXPERIENCE

Jan 2020 – April 2020

Junior Web Developer • [_Nology](#) •

A 12 week course where I learnt the fundamentals to become a junior web developer then implemented them in a real world client project.

We worked closely with a start up called Vojo for our client project and as a team gathered requirements, turned them into user stories. Our client project has been based wholly on pair programming and team collaboration to ensure we have clean code and it has been checked and code reviewed by multiple people. Whilst on the course I won a tech award for completing a challenge in under 90 lines of code.

October 2019 – December 2019

C&E Assistant Manager • [Holiday Inn](#) •

November 2018 – October 2019
